

Coin-HSL Archive

A limited selection of HSL packages free for personal use

Latest version: 2023.11.17

HSL Archive packages are available at no cost for academic or commercial use. This licence is for personal use only, and the software may not be redistributed in whole or in part, as source or in binary form.

For incorporation in software that you distribute, we offer an incorporation licence. Pricing is done on a case-by-case basis. Please contact us to discuss your requirements. Pricing is similar to the main library codes due to additional support overheads.

For more information about Coin-HSL please see the main [Coin-HSL](#) page.
